## (54) AUTOMATIC VENDING MACHINE FOR ELECTRONIC PAPER INFORMATION

## (57)Abstract:

PROBLEM TO BE SOLVED: To provide a system transmitting and selling various kinds of information on newspaper, magazines, advertisements, etc., by using dot data for the most part.

SOLUTION: The data information presented from the information providers from a newspaper publishing company 11 and a publisher 13, etc., is converted into electronic paper information via electronic paper manufacturers 21 and 23. The information obtained from the places is transmitted to a satellite line or a ground line from a center 32. The transmitted information is received by the outdoor receiver incorporated into an information automatic vending machine 40. When the received information is temporarily stored in the recording part at the inside and it is discriminated that information price is paid by cash and a prepaid card, desired data from stored information is written in a recording medium 52 such as an IC card, etc.

## LEGAL STATUS

[Date of request for examination] 07.08.2001

[Date of sending the examiner's decision of rejection] 09.03.2004

[Kind of final disposal of application other than the examiner's decision of rejection or application converted registration]

[Date of final disposal for application]

[Patent number]

[Date of registration]

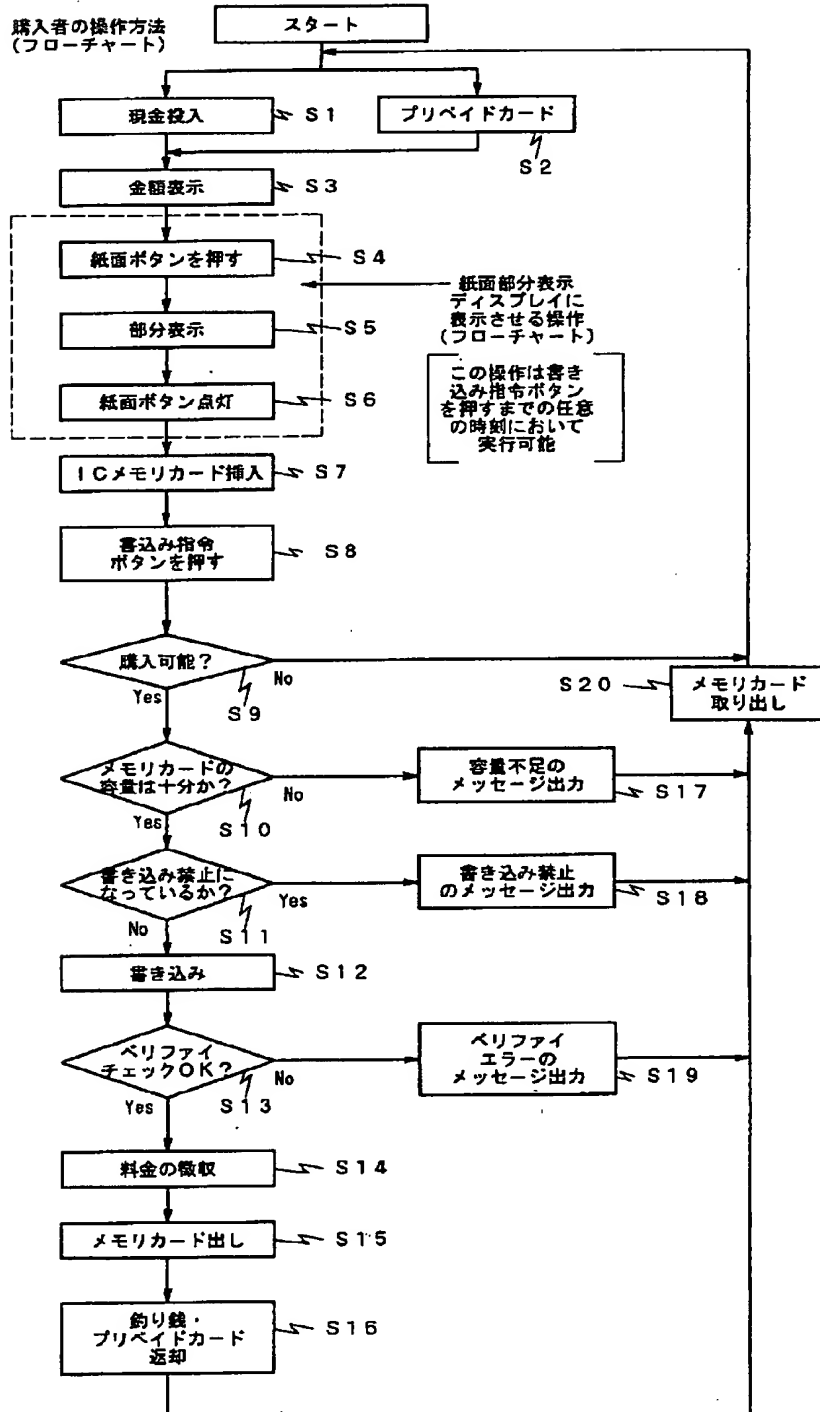

[Number of appeal against examiner's decision of rejection]

[Date of requesting appeal against examiner's]
